DETAILED ACTION

1. The amendments to the claims, filed on June 24, 2009, are acknowledged.

Restrictions/Elections

2. The requirement for restriction and species election in the restriction requirement dated 12/18/08 is hereby withdrawn.

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with **Mike Davis on September 24, 2009.**

In the Claims:	Please amend the claims as follows:
Claims 13	CANCEL claims 13.

REASONS FOR ALLOWANCE

4. The following is an examiner's statement of reasons for allowance: The instantly claimed compounds are novel and non-obvious over the prior art because of the following structural limitation: **The presence of two fluorinated aliphatic side chains on the central malonitrile**

group. The closest prior art is Otaka et al., WO 02/090320. This reference does not encompass the scope of the instant application, which includes the following novelties: the R chain in the instantly claimed compounds is required to be a fluoroalkyl group. Otaka et al. discloses many malonitrile compounds of the following formula as pesticidal compounds, which have a similar core to the instantly claimed compounds, but without the novelty identified above.

However, the instantly claimed formula does not allow for the presence of an aromatic ring in the R side chain. The prior art reference does not teach any compounds with an aliphatic chain at this position nor would there be a motivation specifically to change the phenyl ring to an aliphatic fluoroalkyl group. The prior art reference does not contain the identical or obvious substituents at the aforementioned positions. A person of ordinary skill in the art would not have expected that making these structural modifications would retain identical activity as disclosed in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. Claims 1-12 and 14-34 (renumbered 1-33) are allowed.
